**TO WHOM IT MAY CONCERN**

Mueller College Early Learning Centre recently engaged Australian Solar Power Consultants to install a 30kw Solar Plant on the Centre. This reference is to certify our complete satisfaction with the quality system they installed and the excellent service that was provided.

We highly recommend Mr Fred Dickman and his team to any prospective clients who may be interested in installing one of their systems.

It is already saving us considerable costs for our electricity and we are convinced that the system will be paid for many times over as it continues to provide us with a free source of energy for our Centre.

One of the best decisions we have made in recent times.

Yours sincerely,

R L Heazlewood  
Director  
Mueller College
